ALKOA

NAIMA x BLANCHE

Mid early to Medium

Table potato

A mid-early to early variety producing fairly large, uniform tubers with attractive yellow skin and yellow stem. It adapts well to mediteranean and African countries. Low susceptible to bruising, it is rustic and stores well.

Why ALKOA ?

- High yield potential
- Homogenous large size tubers
- Good resistance to heat and water stress
- Good storage ability

DESCRIPTIVES CHARACTERS

Tuber

Shape	oval to Long oval
Regularity	Regular
Eye depth	Shallow
Skin	Yellow
Flesh	Yellow

Lightsprout

Purlish red light color

Flower

White

Flowering

Fairly abundant

GROWING AND USE-RELATED

Yield

Good - 100% Spunta

Caliber

Hight proportion of large tubers
Tubers numbers / feet : 11-12

Quality

Taste quality	Fairly good
Cooking resistance	Good
Blackening after cooking	None
Culinary group	A
Dry matter content	17%

Physiological characters

Rust spots	Low susceptibility (7/9)
Hollow heart	Low susceptibility (7/9)
Cracks	Low susceptibility (7/9)

Susceptibility to diseases

Leaf blight	Susceptible (3/9)
Tuber blight	Fairly susceptible (4/9)
Virus Y	Fairly susceptible (4/9)
Virus X	None
Virus PLRV	Fairly susceptible (4/9)
Common scab	Slightly susceptible (6/9)
Nématode RO1-4	Susceptible (3/9)
Wart scab	Resistant

Susceptibility to bruising

Low susceptible (7/9)

Susceptibility to desprouting

Low susceptible (7/9)

Storage ability

Good (7/9)
